Taylor Frank W.G.

... cheering news came to Mr & Mrs Arthur Taylor (of) Swellshill on Sunday about their son Pte Frank W.G. Taylor, Yorkshire Light Infantry. Frank belongs to the light infantry by nature for he is both little and lively. He had not been heard of for 13 weeks till Sunday, when a postcard was received saying that he is a prisoner of war in Stendal, Germany...

... after eight months spent as a prisoner of war in Stendal Camp, Germany, he has now arrived in France. No letters or parcels have been received by him, although many have been sent to him.

Temple Charlie & Arthur

Stroud News 08/09/1916

... sons of Mr Temple the gardener at Amberley Ridge, who lives in Butterrow are home on leave. They are both in the Army Ordnance Corps and Charlie has been wounded by shrapnel in the thigh. They are jolly good soldiers anxious to return to duty and do all they can to bring the war to an early finish. Just the sort of spirit we want is theirs.

Thomas William Alfred

Thompson Samuel

From Parish Church magazine 1938:

Samuel Thompson who lived at the furthest end of Butterrow was buried in Rodborough Churchyard on October 12th. He has served in the Great War of 1914-18 and had been badly gassed. This seriously affected his health and he had several times gone into Stroud Hospital for treatment. Several times he recovered sufficiently to carry on with his work and he did carry on, but at last the gassing got the better of him, and after only a few days in Stroud Hospital at the beginning of October he passed out – a soldier who had done his bit and suffered for it.

The staff of The Bear Inn 1920s. Sam Thompson (white cross) was a 'boots' for the Inn and helped his wife Clara (nee Jones – white asterix) who ran a café. (Courtesy of Malcolm Jones)

Tilley Edwin Frank

Born 1897 Rodborough. Worked as a stickmaker. Enlisted as a part time soldier with 5th Glos Rgt. in July 1913. He was transferred to France on 25/06/1915 and served with 1/5th Glos Rgt (1935TF later 240298).

Awarded the Military Medal and 1915 star

Stroud Journal 22/06/1917:

they The following letter from another en agees one end contained a lot of barbed wire, so any agees one end contained a lot of barbed wire, so any te efforts at long distance swimming were off. A and Last year, however, we had some real good ye ners, times in a large lake until Fritz rumbled us and argued with 5.9's that it was dangerous B sure to bathe in the artillery area. However, one co will day I was lucky enough to get hold of a pass of and to '____' and three of us had a splendid th and to '_____,' and three of us had a splendid as swim in the public baths there. While standnot ing on the side not liking to go in for the first relet time, a French kiddie pushed me in, so as the water was quite dark I tried our old trick of swimming under water to the other side, and un chimbed quietly out. The 'garion' was still T av. waiting for me to come up, and after crying because he thought he had drowned me, he suddenly dressed and ran out fearing he was a murderer and might be detected. My ti-ghost, I hope, is still haunting his dreams. by My first swim this year was in a flooded ditch, and so cold that after a frenzied 100 yards I get out—until next day. Now we are in the line again, and I look forward to n two things-leave, and a move to an area lo where nature, or man, I don't mind which, in in Se. ys has provided facilities for swimming. Frank for b Stinchcombe, another ex-member of the club, m is still going strong in the same machine gun sp company as I am in. I have read of the doubt P as to whether our Flyers are the superiors of to the Allemands. Let me state that out of st seven fellows who came out with this division over two years ago, only two of us had ever seen the cross on an enemy plane even with le binoculars. We know whether a plane is n hostile or not easily, for if our anti-batteries re fire then it's a Boche, if they don't then it's our's, and our R.F.C. are supreme, for no enemy plane ever comes over our lines save at a tremendous height. Our's descend so low that we can see the numbers on them with the naked eye, while they fire a Lewis gun at the Fritzs' in the opposite front line. Nr best wishes to all I know in the club, and may I soon be with you to test the tempera-ture of the water myself."

RODBOROUGH – MEN & WOMEN WITH WW1 SERVICE

...in the RAF wireless of the 34th Squad, 14th Wing, in Italy... (initially) mobilised with the 5th Glos. and this is his second transfer...in 1916 he got into the M.G. Corps and now has what he has wanted since 1914. He is a lucky dog to have got what he wanted in these days. He says his new job is a vast difference to slogging a pack ... sudden moves, short rations, and questionable billets ...

Tyler Jimmy

Stroud News 11/08/1916

Jimmy Tyler for some months now a prosperous farmer in Butterrow west went under medical examination in London the other day ... enlisted for service ... Jimmy is one of the first exponents of the Soccer code ... Brimscombe Football team... emigrated to Canada some years ago, prior to which he was with his late father Mr A.G.Tyler house furnisher of High St, Stroud and cabinet maker of Brimscombe. He was engaged on farming pursuits and on the outbreak of war joined the Canadian Highlanders where engaged as a despatch rider in France he fell with his motor cycle into a shell hole and suffered so serious an injury to his knee that after a long period of recuperation at the base hospital and in England he was given his discharge. Then he established himself as a farmer in Butterrow and was doing very well, but the exercise etc so improved his condition that doctors consider him fit for service and he is selling up his stock and returning to Canada where he has been posted to a position on the recruiting staff.
